Software Engineer

python | Django | Rest Api | Version control...

As a passionate Computer Science graduate, I bring a strong affinity and skill for Software Development to the table. My experience in backend development has built a solid foundation, and I am highly adept at implementing data structures and algorithms. My expertise also extends to building resilient Rest APIs. My proficiency in Git and GitHub, as well as other version control systems, ensures seamless and collaborative project management. I am always eager to learn and adapt to new technologies, and I have a proven track record of utilizing them to create cutting-edge solutions.

EDUCATION

Unity University – *Ethiopia, Addis Ababa*

Bachelor of Science – Computer Science, July 2023

PROFESSIONAL SKILLS

- Back-end development using python, Django, Django Rest API.
- Comfortable working with front-end development Html, CSS, JavaScript, Tailwinds
- In order to assure quality of a software working on testing environment and framework pytest , unittest, selenium
- Comfortable working in Git, GitHub, Docker, Kubernetes.
